Senior Talent Partner with 8 years of experience across global technology, digital transformation, executive search, employer branding, and strategic workforce initiatives. Proven track record partnering with senior leaders to translate business needs into hiring strategies, talent pipelines, market insights, and scalable recruitment delivery.

Experienced in complex tech hiring across Software Engineering, Data Engineering, Architecture, Digital, Product, Finance, Legal, and Sustainability, with background from IKEA, Microsoft, ENGIE, and executive search environments. Strong at connecting talent acquisition with workforce planning, capability needs, stakeholder advisory, and long-term talent strategy across Europe, North America, and Asia.

EXPERIENCE

People & Culture Leader · IKEA of Sweden

2025 – present

- Strategic people and talent partner for IKEA Range Areas, partnering with senior leaders on workforce planning, capability needs, succession, hiring priorities, and people KPI analysis across 1,000+ co-workers in Europe and Asia.
- Acting as sparring partner to leaders on future competence needs, organisational change, team composition, and talent planning, translating business priorities into people and talent actions.
- Partner closely with Talent Acquisition and P&C stakeholders to improve alignment between hiring demand, workforce planning, internal mobility, succession, and long-term capability building.
- Enable leadership discussions across a complex matrix organisation, creating stronger alignment between business, P&C, and recruitment teams.
- Support strategic talent conversations connected to career paths, succession approach, engagement insights, and capability development across Range Areas.

Talent sourcer & transformation project leader · IKEA of Sweden

2022 – 2025

- Led recruitment delivery for a 3-year FTC-to-FTE workforce transformation in Range Digital, coordinating 300+ hires across Data, Technology, Engineering, Product, and Digital functions.
- Partnered with Range Digital management, Finance, hiring managers, and recruitment teams through weekly forums to align headcount, hiring priorities, budget impact, workforce risks, and delivery progress.
- Managed a team of 3 recruiters, 1 talent sourcer, and 1 external consultant, ensuring alignment on sourcing strategy, stakeholder expectations, and hiring outcomes.
- Designed and executed strategic market mapping and niche sourcing strategies across data and technology domains to identify future-critical competences for IKEA.
- Owned stakeholder alignment across IKEA, establishing a more structured cross-functional hiring model between business areas..
- Led executive search assignments for senior roles across Legal, Sustainability, Digital and Finance.
- Designed global employer branding activities, including coordination with external partners to strengthen IKEA's positioning toward digital and technology talent.
- Graduate of IKEA Next Generation Leaders 2024, with assignment focused on Product Development in the era of digital tools.

Talent Sourcer - Global Talent Acquisition · Microsoft

2021 – 2022

- Specialized in high-complexity technology sourcing for Software Engineering, Data Science, Cloud Architecture, and senior technical roles across EMEA.
- Built diverse talent pipelines for flagship products including Microsoft Teams, Azure Core, Skype, and Microsoft AI.
- Headhunted early European engineering talents for Microsoft AI, now MAI.
- Partnered with recruiters and hiring stakeholders to shape sourcing strategies, calibrate profiles, and improve candidate quality across competitive talent markets.
- Led employer branding and candidate engagement initiatives across LinkedIn, Microsoft Sway, Discord and Reddit, strengthening Microsoft's reach with technical talent communities.

Talent Acquisition Partner & Employer Branding Expert · ENGIE Italia

2020 – 2021

- Owned full-cycle recruitment strategy across Italian regions, partnering with business leaders to identify hiring needs, attract talent, and improve recruitment delivery.
- Built sourcing and attraction strategies for roles in renewable energy, engineering, operations, and business functions.
- Developed employer branding initiatives to strengthen ENGIE's positioning in the Italian talent market.
- Partnered with Politecnico di Milano to coach and engage young professionals, supporting early career attraction and university relations.
